<b>SSLC</b> Wisdom Metric Hr. Sec. School <b>72.2 percentage</b>	2019 - 2020

## PROJECTS

### Restaurant Website:

- Developed a responsive restaurant website using React.js with a clean and modern UI.
- Implemented features for users to explore menus and book tables effortlessly.
- Ensured smooth navigation and user-friendly interaction for a seamless experience.

### Expense Tracking App:

- Developed a Money Management App using React Native to track income, expenses, and savings
- Integrated a mock backend with json-server for fetching and storing transaction data
- Implemented features like transaction filtering, category-based views, and a clean, responsive UI

### To-Do List Web App/Application:

- Created a To-Do List as both a web app (React.js) and a mobile app (React Native).
- Enabled users to add, manage, mark tasks as complete, and delete them when needed.
- Designed a simple and intuitive interface for easy task management.
